## Science Fest '09

The Randolph College Society of Physics Students is proud to bring you the 2009 Randolph College Science Festival. Begun as a Science Day for kids in 2005, we are joined by science, humanities and arts departments across the campus, and by seven illustrious presenters to bring a weekend of activities for all. All activities are free and open to the public. Only the Science Day activity requires pre-registration, please feel free to drop in on any of the other events. All Science Day participants receive a t-shirt, and the first 100 people who attend other Science Festival events will receive a t-shirt. For complete information, please see our website at <http://physics.randolphcollege.edu/sps/scifest>.

Want to eat on campus? Please check out the options at our website.

### Saturday, April 4

Event (Building, location on campus map)

**11:45-5:00 5th Annual Science Day (Physical Education and Recreation Building, 27)**

Sponsored by AREVA, for children in 3-6 grade, pre-registration required (<http://physics.randolphcollege.edu/sps/sciday>). An afternoon of guided hands-on activities, such as building an earthquake-proof house, a recycling race, and Science Jeopardy!

**7:30-10:00 Randolph College Spring Theater Production: pm "Seeing Purple" (Thoreson Theatre, 28)**

Written by Randolph College faculty member Jim Peterson, directed by Randolph College's Ken Parks, and acted by our students; for mature audiences, this is not part of the Science Festival weekend. For more information: <http://faculty.randolphcollege.edu/theatre/>

**9:30-10:30 Observatory Viewing pm (Winfree Observatory, 7)**

Come to see our state-of-the-art 14" telescope and robotic mount. Astronomer Tom Michalik will be leading this open viewing of the stars for all ages. Observatory will be open no matter what the weather brings, but viewing through the telescope will only be possible if the sky is clear. For more information: <http://faculty.randolphcollege.edu/>

**10:30-The Best Ever Demo Show  
11:30 pm (Martin 315, 23)**

Dr. Peter Sheldon and the Society of Physics Students pull out all of their best physics demonstrations. You have to see it to believe it. For all ages.

### Sunday, April 5

**12:30- Sports and Sports Injury Prevention  
1:30 pm (Martin 315, 23)**

Professional Physical Therapist Rebecca Irby will be joined by Coach Cat Phillips to talk about the science of sports and sports injury prevention. For all ages, all athletes and non-athletes alike.

**2:00- Randolph College Spring Theater Production: "Seeing Purple" (Thoreson Theatre, 28)  
4:30 pm**  
See Saturday's description.

**3:30- Science Poetry and Song Open Mic  
4:45 pm (Student Center, 14)**

Please bring your own short piece of poetry or music to share, we urge audience members to take the mic. We will feature readings by Kelley Swain (Randolph-Macon Woman's College '07), author of *Darwin's Microscope*, and by poet and Randolph College Professor Laura-Gray Street, and we will debut the original Randolph College Physics Rap.

**5:00- Theater in the Round: Copenhagen  
6:30 pm (Lab Theatre, Legget, 1st floor, 28)**

Students from the Theater Department will stage a reading of the science-themed play, Copenhagen in an intimate setting where the audience sits around the readers.

**7:00- A Scientist Goes to the Movies: Jurassic Park  
9:30 pm (Main 315, 23)**

Thoreson Professor of Biology, Doug Shedd, will have running commentary on the science in the movie Jurassic Park as we watch the movie. Free popcorn will be served! Rated PG.
